### Gervasoni in the living area: contemporary comfort in one's domestic universe

Gervasoni's collections tell an ideal of contemporary comfort, special because of the attention to details, the quality of materials and the uniqueness of craftsmanship. Gervasoni gives life to its own domestic universes, proposing solutions suited to meet different needs: modern, elegant, minimal living areas, in which each product is an invitation to relax and to feel enveloped by the soft upholstered furniture of the different collections

### Focus on: Nuvola armchair

The elective place for moments of relaxation, Nuvola is a collection of upholstered furniture, composed of armchairs and sofas that stands out for its soft and attractive shapes. Its "chubby" line, which has made it a true icon, characterized by high armrests and deep seat, welcomes you like a hug, creating a true cocoon effect. An oversize upholstery with an informal feel that is completely removable and changes its look depending on the chosen upholstery: if the important and worked fabrics enhance its full shape, the light cottons and linens lean against the structure as if supported by the air.

### Kalimera Kriti

Kalimera Kriti is a prestigious resort on the northern coast of Crete, idyllically located on the outskirts of the picturesque fishing village of Sissi, near the ancient town of Malia and its Minoan palace dating back to 2000 BC. This unique contemporary retreat combines elements of the Minoan palace architecture with neoclassical inspiration. The goal of the interior design project was to create a dialogue between indoors and outdoors, generating a relaxing atmosphere in harmony with the environment in which Gervasoni, with its informal style, is perfectly suited, furnishing the suites with chairs and tables from the Gray, Brick, Brass, Ghost and InOut collections.
