Four Seasons' Promotion
Change cover for a new look every time

With a simple gesture, such as changing the cover of the sofa or armchair, you can give a new image to the house and go from a creative and colourful mood to a fresh and delicate atmosphere. Gervasoni upholstery is designed to change covers in a moment. The house makes the transformative spirit of the furniture its own. As easily as one changes the light and atmosphere of the home in fine weather, so too can upholstered furniture indulge the desire for lightness and simplicity that belongs to summer by covering itself in soft white linen.

It is a wonderful opportunity to "dare" a different cover, letting yourself be enchanted by the many fabrics in the catalogue. From the incredible palette of solid colours or from the patterns born from unconventional creativity. Fluffy and full-bodied linen. Natural and light cotton. Smooth and iridescent velvets. Gervasoni upholstery collections are dressed in personal taste, to respect the soul of those who live in a space and want to feel at home.

Thanks to the Four Seasons promotion, those who buy one of Gervasoni's products in their favourite fabric, will receive a second cover in White Linen! The promotion is valid until 31.12.22 only in the participating retailer stores. Loll armchairs 07-08-09 and the Outdoor Collections are excluded from the promotion.

Focus on: Ghost Collection

Comfort and versatility are the keywords that define Ghost, a collection of seats that are as comfortable and enveloping as their upholstery. The name of the collection is inspired by the white version which, thanks to the soft falling fabric, brings to mind the common imagination of ghosts. The large collection Ghost seats is developed around a light body with essential volumes that contains soft cushions.

The main feature is the upholstery: an oversized house whose profile is underlined by the visible stitching. Sofas, armchairs, ottomans, chairs and beds are undressed and dressed in a flash, like a change of clothes, taking on a different image each time, simple or sophisticated, depending on the personality of those who choose and live them.

Villa La Calade

In the south of Provence, Cassis stands overlooking the Cote d'Azur, among turquoise waters and lush hills covered in vineyards, a small harbour of fishermen with pastel coloured houses and boats swaying peacefully. In this almost dreamy context we find Villa La Calade, a fantastic Villa perfect for planning a holiday in the name of relaxation, sunbathing and good food. Once again, various collections have been chosen to enrich the indoors and the outdoors spaces: the Jeko and Inout products furnish the villa's outdoor areas, consisting of gardens, verandas and a pool. While Moon, Ghost and Loll decorate the interiors in the name of comfort and softness.
