The GUNA Collection brings your balcony to life

With a strong multi-ethnic inspiration, Chiara Andreotti created the GUNA outdoor furniture collection, which includes carpets, charpoys, cushions and coffee tables.

Guna is a Sanskrit phrase that means "energy that envelops all things" and is derived from the Indo-European root *gere*, which means "envelopment."

Guna was originally used to refer to a single string used to weave a rope. A name that includes the collection's profound meaning: a weave of yarns, stitches, and textures, as well as influences, relationships, and cultures, all underpin the designer's effort.
