

We would like to thank you for joining us and celebrating the Milano Design Week 2023 together!

We look forward to seeing you at the next edition in April 2024.

Twist Project / Salone del Mobile 2023

The 61th edition of the Salone del Mobile ended on Sunday 23 April.

The new indoor and outdoor collections were presented at the Salone del Mobile through 'Twist-project', an installation curated by **Concetta Giannangeli**, designed to recall the aesthetics of **patio houses** characteristic of traditional Spanish architecture. The entire stand was surrounded by a façade that recalls a **brise soleil** made of natural felt, a textile detail declined on an architectural scale that creates a play of solids and voids, of chiaroscuro, opening up glimpses that allow the view to pass beyond.

The Gervasoni stand showcased the new indoor collections by **Federica Biasi**, **Federico Peri** and **Gabriele and Oscar Buratti** and outdoor products by **Federica Biasi**, **Nendo** and **Chiara Andreatti**.

TAO Project / Showroom Via Spartaco 34, Milano

Gervasoni and Federica Biasi presented "TAO": a journey to discover Gervasoni's world, between past and future.

"In Eastern philosophies, the **Tao symbol** – said the designer – otherwise also known as the yin and yang, **represents the path, the becoming of things**. I have imagined a path, rhythmical by the natural world and pure colours, that **accompanies the visitor in a reading of the Gervasoni aesthetic world** through rooms and places designed to exalt the past of the historic brand and highlight the new. The visitor will find himself immersed in the movement to be transported into Gervasoni's universe".

The Gervasoni showroom was the venue for the presentation of the new 2023 collections with products by **Federica Biasi**, **Nendo**, **Federico Peri** and **Gabriele and Oscar Buratti**.
