Casa Moderna

Gervasoni participated in the 68th edition of Casa Moderna, a historic and key event in Friuli Venezia Giulia exhibiting the best furnishing solutions, staged from 2 to 10 October in the spaces of Udine Fiere. The installation curated by Marco Viola architecture studio proposed a selection of Gervasoni products from the LOLL, NEXT, GHOST and GRAY collections, each defined by a strong identity.

Verde Grazzano

For the second consecutive year, Gervasoni took part in Verde Grazzano, the event dedicated to the art of gardening and creativity that brings together the best nurserymen in a unique setting, the park of the castle of Grazzano Visconti, in the heart of the Emilia Romagna. The products of the outdoor collection were chosen to create lounge areas between the symmetries of the Italian garden, the fragrant rose gardens and the baroque of statues and fountains.
