Federica Biasi for Gervasoni: Samet, a sofa with no rules

The well-established collaboration between Gervasoni and Federica Biasi is a meeting of styles that gives life to a unique collection that recalls Thai imagery.

The Samet modular sofa is born, a project that keeps the brand's traditional stylistic features intact, such as colour, softness and that ideal of an enveloping home, reinterpreting them in a contemporary key. On the one hand, the elegance and refinement of the Gervasoni tradition, on the other, the flair and creativity of the internationally well-known Milanese designer and art director. Her philosophy is based on a clean aesthetic approach: nothing is left to chance, every detail has a precise aim.

Gervasoni celebrated its 141-year history in Madrid with all employees

All of Gervasoni's more than 100 employees have been involved in a 4-day team-building trip to Madrid to celebrate the achievements of the past few years, the last May's IPO and to consolidate team spirit and collaboration among all departments and areas.

Boutique Hotel Nils am See

In the Austrian countryside, overlooking Lake Neusiedl, the new hotel aims to become a place for the exaltation of the senses: soft materials, colours of beige, cream and grey, lights filtered by linen and cotton drapes convey the sensation of a modern beach house furnished with maritime boho style decorations. The hotel's spaces see Gervasoni as the protagonist, with indoor and outdoor furnishings that punctuate the rooms with coherence and elegance.
