CLUB / DIVANO MODULARE, Roberto Lazzeroni

Il divano modulare Club amplia la flessibilità della collezione, permettendo configurazioni libere e adattabili allo spazio. Mantiene la morbidezza dei volumi e il segno distintivo dello schienale piegato, unendo comfort e versatilità. L'imbottitura in poliuretano espanso e il rivestimento sfoderabile garantiscono funzionalità e continuità estetica. I piedi in frassino completano il progetto con un accento naturale.

Disponibile in tutti i tessuti eccetto NEW BEAR, NATURAL. Con tessuto 3D solo cucitura interna.
