Day-bed, tubular aluminium frame painted embossed. Adjustable back, removable cover with a quilted fabric.

Aluminium offers stability over time, resistance to the weathering and easy maintenance. Moreover, it is recyclable and can be reused an infinite number of times without the slightest alteration of its technical and mechanical properties. Aluminium is processed with a powder finish, after a saline-proof treatment that inhibits the natural oxidation of this material. The subsequent powder-coating process increases resistance to corrosion while also protecting the metal against scratches and chipping.
