GHOST OUT / 扶手椅,
Paola Navone

The Ghost Out padded armchair with removable upholstery is a comfortable and enveloping seat that develops around a light shell with essential volumes. Designed to resist water and sunlight and to maintain its shape and aesthetics over time, it is characterised by a geometric structure in which the softness is accentuated by loose cushions. The main feature is the upholstery: an oversized housse whose profile is underlined by the visible stitching, to let itself be undressed with ease and take on a different image each time. Solid beech frame with raw plywood panels. Upholstery with polyurethane foams, covered by resinated material. Back cushions in dacron and down. Black polyethylene feet.

Recommended for use on verandas and terraces. All GHOST OUT collection items must be protected from sunlight using the protection cover to ensure the water-repellency characteristics. For best results, make sure the items, cushions, covers are completely dry before covering furniture, in order to avoid moisture build-up or the growth of mould.
