The Inout 852/853 sofas and Inout 858/859 dormeuses develop around a light structure in Pearl, Oxido, Agate or Slate painted embossed tubular aluminium, an ecological material, unique for its technical qualities. To this is added a particular weave in grey, black, tobacco or blue elastic strap, an innovative product based on synthetic rubber and propylene. For greater softness, seat cushions and loose cushions with removable upholstery.
