NUVOLA / CANAPÉ,
Paola Navone

A family of sofas with soft and attractive shapes, Nuvola’ s aesthetic invites you to dive into it: the high armrests welcome a seat as deep as a hug, creating a real cocoon effect. Available with two or three seats, they are padded with multi-density polyurethane foam covered with quilt padded with goose down and polyester fibre staple. Solid beech frame and raw plywood panels, seat with elastic belts or raw plywood panels supporting the seat itself. The cover is removable with visible seams that draw the profile of the product, and can be made with all the covers available in the catalogue in the name of maximum versatility.
