STRAP / BETT,
Neri&Hu

A perfect blend of elegance and functionality, the Strap bed is a striking centerpiece of the bedroom with its eclectic yet essential design. The interplay of materials and volumes defines the bed, featuring a headboard in ash wood wrapped in padding that softly falls like a blanket, fastened with a faux leather strap. Practical yet refined, the materials combine in unusual but elegant pairings. Upholstered knock down bed frame, removable cover. Padded headboard, cushion with removable cover, also available in a different fabric.
