Traditional craftsmanship is combined with contemporary materials in the Sweet family of suspension lamps. Made with matt black or glossy white PVC weaving, they are available in several variants, characterised by a bell shape or the classic dome shape in three different sizes. Internal structure made of round iron bars stained with black or white semi matt epoxy powder. Supplied with complete wiring set (electrical cable lenght 250 cm; steel cable lenght 200 cm). Metal upper part for fixing to the ceiling. Bulb holder E 27. Maximum power: 14 W (SWEET 91) 18 W (SWEET 95/96), max. 220 Volt.

PVC: Tubular woven PVC is obtained through an extrusion process. Produced with first-class components, it offers excellent levels of flexibility and softness. The addition of special stabilisers prevents the ageing of the material by improving product resistance and durability over time. Despite being a safe and stable material, the use of aggressive detergents can cause yellowing and loss of elasticity.

Directive 2002/96/EC (Waste Electrical and Electronic Equipment - WEEE): information for users. This product complies with EU Directive 2002/96/EC. The crossed-out wastebasket symbol on the appliance means that at the end of its useful lifespan, the product must be disposed of separately from ordinary household wastes. The user is

responsible for delivering the appliance to an appropriate collection facility at the end of its useful lifespan. Appropriate separate collection to permit recycling, treatment and environmentally compatible disposal helps prevent negative impact on the environment and human health and promotes recycling of the materials making up the product. For more information on available collection facilities, contact your local waste collection service or the shop where you boughl this appliance.
