YAKU / BANCO,
Gabriele & Oscar Buratti

Yaku collection is characterised by linear features, simplicity and elegance where wood and its veins have the leading role. The bench is made of MDF covered in multilaminar wood veneer.

MDF: MDF (Medium-Density Fiber-board) is a wood product, the panels are obtained from very thin fibers, which are bind together with a glue material and compacted by applying high pressure. MDF is covered with multilaminar wood veneer available in several colours in matt transparent finish. The tops are finished with protective coatings, that never make the surface impervious, but are useful to slow down absorption of liquids. Cleaning: use water and a neutral detergent on the surface. Avoid direct contact with aggressive chemicals substances, solvents, ammonia, inks, oily soaps, lemon, wine, coffee. In case of contact, rinse the surface immediately and thoroughly.
